

Since 2000, the International Diabetes Federation has produced the IDF Diabetes Atlas. This publication details the extent of diabetes and shows how it is impacting every country in the world. On this country report, estimates and projections for prevalence of diabetes and its burden are calculated for 2017 and 2045. Use this country report to raise awareness and help the diabetes community to promote diabetes care, prevention and cure worldwide. For more information visit us at www.diabetesatlas.org
